```ts
interface UsersState {
  ids: string[];
  entities: { [id: string]: UserModel };
  selectedUser: UserModel;
  count: number;
  activeUsers: UserModel[];
}
```

```ts
interface UsersState {
  ids: string[];
  entities: { [id: string]: UserModel };
  selectedUser: UserModel;
  count: number;
  activeUsers: UserModel[];
}
```

```ts
interface UsersState {
  ids: string[];
  entities: { [id: string]: UserModel };
  selectedUserId: string;
}
```
