

```
interface UserModel {  
    id: string;  
    name: string;  
    email: string;  
    active: boolean;  
}
```

```
interface UsersState {  
  ids: string[];  
  entities: { [id: string]: UserModel };  
  selectedUser: UserModel;  
  count: number;  
  activeUsers: UserModel[];  
}
```
