```javascript
const selectUserBooks = createSelector(
  selectUser,
  selectBooks,
  (user, books) =>
    user.bookIds.map(bookId => books[bookId])
);
```

```
const selectUserProfile = createSelector(
  selectCurrentUser,
  selectUserBooks,
  selectUserFavorites,
  (userBookIds, books, favorites) => ({
    …user,
    books,
    favorites
  });
```
