```typescript
@Effect({ dispatch: false })
  loginRedirect$ = this.actions$
    .pipe(
      ofType('[Auth API] Login Success'),
      tap(() => this.router.navigate(['/home']))
    );
```

```
@Effect({ dispatch: false })
    loginRedirect$ = this.actions$
        .pipe(
            ofType('[Auth API] Login Success'),
            tap(() => this.router.navigate(['/home']))
        );
```
